

# WISDOM

Kingdom of Anger

---

Tips for recording lessons  
with Google Meet

- 
1. Start a Google Meet by yourself
  2. Press the options button and select “Record video”\*
  3. Present your screen
  4. Pull up the Wisdom slideshow and begin!

*\*Not all Google Drive accounts are enabled to record Google Meets. If you do not see this button, check with your school to enable this ability.*

5. Stop presenting your screen when you are done with the slides

6. Press the Options button and select “Stop recording” to finish your video.

- IMPORTANT: Do not leave the Google Meet until you have stopped the recording, or else it will not save.

Note: After the recording is complete, the video will take a few minutes to load. When finished it will appear in a new Google folder in your Drive! You can now post it for your students to see.
